**Cleaning:**  
For occasional cleaning of the skirting boards, use a damp, well-wrung cloth that has been rinsed in clean water. Please note: Scouring cream or scouring powder can damage the surface of the skirting boards and should not be used.

**Disposal:**  
Any leftover pieces from installation or assembly can just be thrown in the bin (e.g. thermal treatment). For larger amounts, please follow your local rules (e.g. take them to a recycling centre). We suggest using approved facilities for energy recovery.
